## ANIMAL HEALTH

**Paramectin Pour On – 20L Herd Pack** (15L+5L Backpack) \$493.33

Paramectin Pour-On for Cattle contains abamectin, a member of the avermectin family of compounds which have a unique mode of action unrelated to that of other products used to control parasites of cattle in New Zealand. It provides a broad spectrum of efficacy against sensitive species of internal and external parasites of cattle.

**Pouracide NF 5L** \$353.33

Pouracide NF is a single dose back-line spray for the control of lice on cattle for up to six weeks. The only combination lice treatment in NZ.

**Vytrate Liquad** 1L \$44.00 / 5L \$132.00 / 20L \$349.33

Vytrate® is a non-antibiotic supportive treatment for scouring or dehydrated calves, lambs & ewes, pigs & piglets, foals, dogs and cats.

**Vytrate Powder Box** (12 Sachets) \$89.33

Vytrate® is a non-antibiotic supportive treatment for scouring or dehydrated calves, lambs & ewes, pigs & piglets, foals, dogs and cats.

**Cobalex 2000 B12 + Sel 500ml** \$78.66

For the treatment and control of Vitamin B12 and selenium responsive conditions in sheep and cattle.

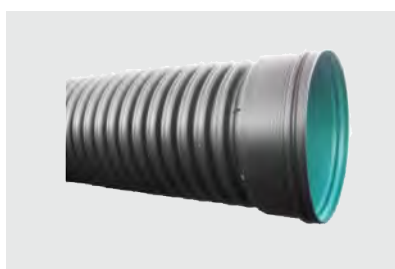

**Key Delta Aqua 1lt** \$144.37

A residual insecticide for the control of flies, ants, bed bugs, cockroaches, fleas, mosquitoes and spiders.
