# CONDITIONS OF SALE

---

## **ALL BULLS ARE TB & BRUCELLOSIS FREE**

Inspection of sale cattle is invited prior to the sale by contacting the Auctioneers or the Vendors.

*The sale Bulls will be penned in small paddocks from 12 noon on sale day.*

## **INSURANCE**

We recommend purchasers to insure their bulls on the day of the sale.

## **REBATE**

All intending purchasers must register at the sales office prior to the sale.

PGW will pay a purchasing rebate of 6% of the purchase price excluding GST, plus GST, to livestock companies & recognised independent livestock agents with a PGW account who have introduced buyers to PGW before the sale and/or accompanied buyers to the sale.

## **The sale is conducted exclusive of G.S.T.**

*Although every care has been taken to ensure accuracy, no responsibility is accepted for any error that maybe included herein.*

## **OSH**

Every effort will be taken by the vendors, auctioneers, their staff and assistants, both on the day of the sale as well as on any other visits of inspection to ensure the safety of intending buyers and visitors. We wish however, to advise that while this sale is run under normal management conditions, certain dangers exist in relation to livestock and their environment. Visitors should take care to ensure their personal safety.

## **PLEASE BRING THIS CATALOGUE TO THE SALE**

# WOODBANK

## ANGUS

Welcome to the 14th Annual Woodbank Angus Yearling Bull Sale.

We're very pleased with this year's group of bulls we present to you. They have been selected for calving ease and suitability for heifer mating. All bulls are below breed average for birthweight and above breed average for calving ease. This group is very sound phenotypically, clean up front with good shoulders, reign of neck and supported with EBV data suitable for mating yearling heifers. We have selected this group of 40 from 180 yearling bulls.

Our in calf heifers have been pushed fairly hard around the hills over the winter and are calving currently as I write this. We are 60% through calving and have assisted one that was breached, this is pretty normal for us and shows the level of calving ease we have ingrained within our herd.

We urge you to consider your own program carefully, the size of your heifers and your environmental circumstances when selecting your bulls. Structural assessment is very important as is the way your heifers are managed in the period before mating through to weaning that first calf.

All bulls catalogued have been blood test clear of BDV and vaccinated twice.

Stud Transfers - Any bull sold requiring a stud transfer for use in a registered herd will be at a minimum price of \$10,000 for a yearling bull. The purchaser or agent must state at the fall of the hammer and on the buyer instruction slip if a transfer is required.

We wish to thank all previous purchasers and supporters from our past sales and hope you'll join us again on October 3rd for our 2023 sale.

*Ben & Caroline*

## Angus NZ EBV's Explained

TransTasman Angus Cattle Evaluation (TACE) EBVs and selection indexes remove the effects of non-genetic factors (e.g. feeding regimes, animal age) from what is seen and measured to provide the best measure of an animal's genetic merit. TACE information should always be used in conjunction with other selection criteria, including visual assessment.

### A BEST PRACTICE GUIDE TO SELECTING YOUR NEXT ANGUS NEW ZEALAND SIRE

A **TACE Guide to Animal Selection** allows you to select the best genetics for your herd in four easy steps:

1. Identify the **Angus New Zealand selection index** of most relevance to you.
2. **Rank animals** using the chosen selection index.
3. Consider the individual EBVs of importance.
4. Consider other traits of importance (e.g. visual assessment).

The majority of these steps can be undertaken online, allowing you to generate a shortlist of bulls for potential purchase ahead of sale day. The searchable version of this catalogue can be found online here [www.angusnz.com](http://www.angusnz.com).

### TRANSTASMAN ANGUS CATTLE EVALUATION

The Angus New Zealand Association publishes the following TACE EBVs and Selection Indexes. Please note that only EBVs from the same TACE analysis can be directly compared.

More information, including EBV descriptions and how to use them, can be found in the **Using & Understanding TACE EBVs** booklet. Scan the QR code for details.

# ANGUSPURE PARTNER STUD

**AngusPure NZ has teamed up with 88 Angus studs who share in our vision - to focus on the end consumer. This stud is proud to be named as one of them, and by using the finest genetics and implementing best management practice they can help you produce more premium quality Angus beef.**

**Only our AngusPure Partner studs display these devices in their sale catalogues. They indicate bulls endorsed by AngusPure NZ.**

## **A** ANGUSPURE ENDORSED BULLS

AngusPure NZ continues to endorse bulls for sale that are either at or above +\$125 for the AngusPure index (API) and at or above \$115 for the AngusPRO index (PRO). These indexes give commercial farmers confidence that by using these selection tools, bulls are most likely to leave progeny with superior carcase quality. At the same time they achieve desirable outcomes for self replacing herds, as the AngusPure & AngusPRO indexes still reward cattle with strong maternal attributes like calving ease, scrotal and growth, along with carcase weight.

**To qualify, bulls will be => +\$125 for AngusPure index OR => +\$115 for AngusPRO index**

## **A+** EXTRA ANGUSPURE ENDORSEMENT FOR MARBLING

In addition to the 'A', and to assist bull buyers who wish to select for more marbling AngusPure are rewarding those animals that are either at or above +\$145 for the AngusPure index and at or above \$135 for the AngusPRO index. In addition to this they must have an IMF EBV (for marbling) equal to or greater than +2.2. These bulls will be awarded an 'A+' endorsement. Marbling is one of the very highest eating quality attributes and is necessary in order to meet some of the highest premium requirements for the export program, AngusPure Special Reserve.

**To qualify, bulls will be => +\$145 for AngusPure index OR => +\$135 for AngusPRO index, and in addition all bulls must be => +2.2 for IMF EBV**

AngusPure NZ recognises the need to lift the amount of marbling in our New Zealand cow genetics, in order to fill the requirements of consumers going forward. Marbling has two critical components; genetics and feeding. Feeding on a rising plane of nutrition is vital but without the genetics these attributes will not be able to express themselves.

Woodbank Bomber 9017, A Reality son we retained from our 2019 calf drop. This is Bombers 1st group of sons to come through the sale ring, he offers all the calving ease required to successfully mate and calve yearling heifers. We will have a large group of sons available for next winters sale. Bomber is in the top 10% for calving ease, gestation length, birthweight and marbling with this all in a moderate frame with natural thickness and depth of rib.

Milestone was retained from our 2020 calf drop. He's very moderate in frame with head, jaw and bone standing on very good feet and will inject muscle and thickness. We used Milestone as a yearling over heifers and weaned 35 calves from him. Milestone's dam Woodbank 6222 was the dam of lot 2 in this years winter sale.

Woodbank Investor 8106, rising 5yr herdsire. Investor was retained from the 2018 calf drop, he's an impressive Capitalist son with all the attributes we look for when retaining bulls to keep within the herd. Investor has completed 4 breeding seasons to date and sired 51 calves as a 2yr old and 49 as a 3 year old all while remaining very sound, good footed and athletic. Investor is leaving some great sons with a number in this years winter sale. His Dam Woodbank 5015 an 8 year old Outlier cow is really starting to prove her worth within our herd, she has 3 active daughters and was the dam of our lot 1 bull in our winter sale which was used as a yearling within our program. 5015 is currently in our embryo program.

Woodbank 20020 was used as a yearling over heifers before being sold for \$22000 to McFadzean Cattle Company in our 2022 sale. We viewed 20020 in the autumn of this year at Johnie McFadzean's and were impressed with how he'd matured and considered him an outstanding young herdsire. We are very happy we'd used him and have a good number of calves by him, we look forward to getting his daughters into production that he's left us.

KG Justified was used as a genuine heifer mating option for us. He has exceptional breed leading calving ease data and is a true curve bender with Growth, Fertility, Milk and Marbling within the top 10% of breed. I viewed numerous Justified sons on our recent trip to the US and they did not disappoint, with only a couple of sons available for the yearling sale a good number will go through to next winters sale.

Woodbank 20028 was our Lot 1 bull that lead off our 2022 sale being sold to Hallmark and Whangara Angus for \$36000. We used 20028 over yearling heifers as a clean up bull after AI. We thought 20028 along with 20020 were the 2 best sons of the Twin Oaks N017 bull we used and these 2 were mated together to heifers. 20020 was the dominant bull siring 35 calves and 20028 siring 12.

Paratrooper P15 set an Australian Angus record when he sold for \$160,000 at the 2019 Millah Murrah sale. By the well established sire of sires, EF Commando, the bottom side of Paratrooper's pedigree features a who's who of maternal Angus legends, with Highlander of Stern, MM Woody W100, Matauri Reality, Crusader of Stern and Hingaia 469 all in the mix. Complementing Paratrooper's structural, phenotypic and pedigree excellence, he also owns a brilliant, balanced EBV set, reflective of the all-round potency the industry requires of the Angus breed today. We saw a large number of Paratrooper sons when we attended the Millah Murrah sale last spring and were very impressed with their overall consistency. We used Paratrooper on a few selected cows where we thought he could add some value for us and will have more son's available for next winters sale.

# MATARIKI

## HEREFORDS

Welcome to our yearling bull sale.

The Matariki bulls have been selected for type suited to heifer mating with moderate birth weights, high calving ease and short gestation with good shoulder placement and rein of neck.

The majority of these yearlings have been wintered in mobs of 150 with the others being wintered in a mob of 90 on the hill.

We have concentrated our heifer mating on high calving ease, low birth weight and short gestation with predictable pedigrees.

Out of our sale catalogue the bulls are predominantly out of two-year-old heifers and mixed aged cows with a lighter birth weight.

All bulls have been tested free and vaccinated twice for BVD.

We will also be selling 40 yearling Hereford heifers. These heifers will be not transferable.

We hope you are pleased with past purchases and thank you for your further support.

*James, Beely, Sam & Jack Murray*

# HEREFORD NZ EBV's Explained

BREEDPLAN EBVs and selection indexes remove the effects of non-genetic factors (e.g. feeding regimes, animal age) from what is seen and measured to provide the best measure of an animal's genetic merit. BREEDPLAN information should always be used in conjunction with other selection criteria, including visual assessment.

## A BEST PRACTICE GUIDE TO SELECTING YOUR NEXT NEW ZEALAND HEREFORD SIRE

A BREEDPLAN Guide to Animal Selection allows you to select the best genetics for your herd in four easy steps:

1. Identify the **New Zealand Hereford selection index** of most relevance to you.
2. **Rank animals** using the chosen selection index.
3. Consider the individual EBVs of importance.
4. Consider other traits of importance (e.g. visual assessment).

The majority of these steps can be undertaken online, allowing you to generate a shortlist of bulls for potential purchase ahead of sale day. The searchable version of this catalogue can be found online at [www.herefords.co.nz](http://www.herefords.co.nz) or [www.pivotdesign.co.nz/catalogues](http://www.pivotdesign.co.nz/catalogues).

## NEW ZEALAND HEREFORD BREEDPLAN

New Zealand Herefords publishes the following BREEDPLAN EBVs and Selection Indexes. Please note that only EBVs from the same BREEDPLAN analysis can be directly compared.

More information, including EBV descriptions and how to use them, can be found in the **Using & Understanding BREEDPLAN EBVs** booklet.

# NOTES:

---

# 14 DAYS FREE COVER. NO BULL.

We want to ensure you get the very best cover on sale day and the best service every day after that. That's why we offer to insure your bull purchased at any **FMG Premier Bull Sale** for 14 days free\* from the fall of the hammer.

**Extend your cover.** All bulls purchased at auction up to \$50,000 can be insured for 6.5% of the purchase price on a 12-month policy. You can choose to extend your 14 days free cover on the Purchaser Instruction and Insurance Slip. For terms less than 12 months, different rates apply.

So talk to your FMG Rural Manager about FMG Premier Bull Sales Insurance.

---

**We're here for the good of the country.**

\* Subject to standard underwriting criteria. Please note this is only a summary of FMG products and services and is subject to our specific product documentation. For full details, refer to the relevant policy wording at [fmg.co.nz/livestockpolicy](http://fmg.co.nz/livestockpolicy)

**FMG**  
Advice & Insurance

# FMG Premier Bull Sale Insurance

## **What is FMG Premier Bull Insurance?**

FMG provides automatic insurance for all bulls auctioned at an FMG Premier Bull Sale up to the value of \$50,000 for 14 days at no cost to the purchaser. For any bull purchased over \$50,000 talk to an FMG representative.

## **What is the length of cover?**

You will automatically be insured for the specified bull for 14 days. You also have the option to extend the length of insurance to 12 months. Simply tick the “Extend your Premier Bull Insurance” option on the Purchaser Slip. The specified bull is then insured for the remaining period of 12 months at 6.5% of the purchase price. If you would like to discuss an alternative timeframe, please have a chat with your local FMG representative.

You don't have to pay today, FMG will invoice you for this additional cover.

04/23 INHD

Call us on  
0800 366 466

Visit our website  
[fmg.co.nz](http://fmg.co.nz)

## What are the benefits?

✓ <b>Infertility</b>	Cover if your specified bull has to be euthanised due to permanent infertility caused by certain accidents, disease, or illness.
✓ <b>Theft or death</b>	We cover your specified bull for theft or death caused by certain accidents, disease, or illness (including while in transit anywhere in New Zealand).
✓ <b>Vet costs</b>	We cover up to \$500 for treatment of your specified bull to prevent death.

## What will FMG pay?

FMG will pay the fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.
