

# MARYBURN POLL MERINO

**Friday 2<sup>nd</sup> February 2024**

**Viewing: 1pm, Helmsman Auction: 3pm**

**Martin Murray: 021 414 822 | Henry Murray: 027 381 9548 | George Murray: 027 737 3487**

# MARYBURN POLL MERINO

## Welcome to the 8<sup>th</sup> Maryburn Poll Merino Ram Sale

The Murray family would like to welcome you to the 8<sup>th</sup> poll merino ram sale.

Last year was a challenge with the wet conditions and this year we have gone from one extreme to the other with the drought like conditions. Irrigation is proving to be worth its weight in gold, we really don't know what we would be doing without it, especially with current mutton and lamb prices. We are hoping that we are only 4 months behind Australia with their current stock price increases now.

Last year we were busy in the sheep showing arena where we went to Wanaka show and proved that our win from the previous year wasn't a fluke as we took the title out again of Champion overall Merino Ram and second place overall sheep of the show. This lead onto the Fairlie show where we took the older Rams with the same breeding as the champion ram in Wanaka, and took out the win at Mackenzie A & P show again. The Fairlie winning ram has got progeny in this sale that is of MB MERC 203. Last year was the Mackenzie/Waitaki two 2th competition where our two 2ths also took out the win for the third time in row. Someone once told me that chasing ribbons is not for grown men but instead I feel it is someone who is proud of their stock and what they have been able to achieve in the Merino industry.

Last year we sold 2300 merino hoggets with an average of \$138 before mid October, our on-farm lamb sale this year averaged \$95 for 2300 mixed sex poll dorset lambs.

This drop of rams would be up there with the most even and biggest rams we have been able to put up for sale. It is also the largest amount of rams that we have put up for sale so we are hoping everyone can find a ram that suits their farm. As always every ram for sale in this catalogue we would happily use them here at Maryburn.

Maryburn is lucky to have a 5-year contract with Devold, of which we are in our 3rd year. We are lucky with the certainty of our Devold contract on years like this. Their premiums are above and beyond other competitors.

This year's sale will be conducted by Hazlett's in accordance with The New Zealand Stock & Station Agent's Association Conditions of Sale.

If you are ever driving past and would like to come and view stock and have a look around Maryburn please don't hesitate to contact Henry, Martin or George.

All the best for your purchases, we would like to thank previous clients and new clients who have come to support us this year.

From all the team at Maryburn

## **Sire Summary**

**Poll Boonoke 612** – This ram has bred some very good poll rams in Australia. He is a tall sire with a broad, straight top line. His wool is extremely soft with character and lustre as you will see in his sons. His sire was JCS 120102. We have kept two of his sons.

**One Oak 137** – A Ram we tried to buy at the one oak sale but sold for a top price of 28,000. We have kept three of his sons, one hopefully will be used in the stud.

**MB DREW 84** – He is a son of Moorundie park bred Drew and a ram that we had a lot of time for. He breed some very good quality rams with higher quality wool. His son is 541. His grandson is 166.

**MB DREW 541** – he has produced a very even line of sons. Son of DREW 84,

**MB RL 166** – Grandson of DREW 84, was the top figured ram of his drop in 2020, weighing in at 143 kgs as of the start of this year, very meaty ram as you can see from the 12 rams in this catalogue, all with very high EMA and fat actuals.

**MB MERC 203** –Very good all round sheep, solid in all areas, won the Fairlie show last year.

**MB GH 4** – A son of Grays Hills 2121, this ram breeds very well. His progeny have real grunt, and his sons are very easy to sell. In the last four years he has shorn over 11kgs of wool, with his sons in this catalogue ranking highly for staple length, fat and EMA. He has 15 sons in this years sale and we have kept 3.

**GH 843** – A sire that breeds very well. Most of his sons are above average for fleece weight and fleece length. We like the wool on this ram and he will be used again in the stud.

**All** – We single sire mate for the first cycle and then syndicate mate with all stud sires for the second and third cycles. This means that any of the rams listed above could have sired this progeny, however looking at these boys now, you wouldn't notice they were born 28 days plus later.
